

Day 3 Screen Shots

This screenshot shows the 'API' tab in the Sanity.io management interface for a project named 'heckathon-template2'. The 'Webhooks' sidebar is active. The main content area displays a newly created API token labeled 'my token' with a 'Developer' role, created 'just now'. A yellow callout box contains the token string: `skXHVNGL01xBY6D31r15DT446HFXVmtG574RU8wLfdZ12tRPdM1Ah7FPDYVCVhgqCYq2I9L4wVlR2tb828TrQwR8d1F4YXMirieY5gFLY5BeC3n0ozY3zdJxs7Ju2aPeTghXKaMox2gsuaBzVwdv7hcsCWQPJGZqLfz6HIVBrijwrKyUUAL`. A green 'Token created' notification is visible at the bottom right. The bottom status bar shows the date as 07/02/2025.

This screenshot shows the 'API' tab in the Sanity.io management interface, specifically the 'CORS origins' section. It lists two allowed origins: `http://localhost:3000` and `http://localhost:3333`, both with 'Allowed' credentials and a 3-day expiration. Below this, the 'Tokens' section is partially visible, showing an 'Add API token' button. The bottom status bar shows the date as 05/02/2025.

ORIGIN	CREDENTIALS	CREATED
<code>http://localhost:3000</code>	Allowed	3 days
<code>http://localhost:3333</code>	Allowed	3 days

Day 3 Screen Shots

Day 3 Screen Shots

The screenshot shows the Sanity Studio interface at `localhost:3000/studio/structure/product:product-20`. The left sidebar shows the 'Content' tree with 'Product' and 'Category' folders. The main editor displays the 'Product' structure for 'Cloud Haven Chair'. The 'Published' tab is active, showing a 'Slug' field with the value 'cloud-haven-chair' and a 'Product Image' field with a placeholder image. A 'Publish' button is visible at the bottom right. A notification banner at the bottom left reads: 'What's new: Sanity Create Content Mapping, Visual Editing, and Content Releases'.

The screenshot shows the Sanity Vision interface at `localhost:3000/studio/vision`. The 'Structure' tab is active, showing a query editor with the query `*[type==product]`. The 'RESULT' tab shows the query result, which is a JSON array of 69 items. The first item is a system group with properties like `_updatedAt`, `grants`, `members`, `_rev`, `_type`, and `id`. The 'Fetch' button is visible at the bottom left. A notification banner at the bottom left reads: 'What's new: Sanity Create Content Mapping, Visual Editing, and Content Releases'.
